Student Support:

General University Support:

University Libraries are the key source of academic information for students. Libraries provide physical library resources (books, journals, DVDs, etc.) and offer a range of study areas to allow students to study in the environment that suits them best: Social areas, quiet and silent areas. Libraries also provide access to a wide range of online information sources, including e-Books, e-Journals and subject databases.

Libraries also provide students with academic skills support via the [Skills for Learning programme](#). Students on campus can attend workshops or ask for one-to-one help on a range of skills such as academic writing and referencing. Students can access a range of online skills material at: www.wlv.ac.uk/lib/skills

The [University Student Support website](#) offers advice on a variety of matters (careers, counselling, Student Union advice, etc.). Students can also access these services by booking appointment with the SU, careers, counselling services, etc.

Course Specific Support:

You will have regular one-to-one tutorials with your academic tutor to discuss your progress. Lecturers will make regular use of the VLE (Canvas) where you can access summaries of classes, homework and consolidatory materials according to your needs.

At regular intervals, there will be formative assessments which will be used for a progress report and a one-to-one tutorial with your tutors.

Employability in the Curriculum:

The course is designed for students who will continue directly onto further subject based study at the University of Wolverhampton and the focus is on helping them achieve the required English level to do so. Students on this course can proceed onto the majority of degree courses at the University of Wolverhampton. It does not therefore seek directly to prepare students for employment. Any students completing the course will have the required command of English and in addition will possess a good level of competence in such transferable skills as working in groups, presentation skills and working to tight deadlines, etc. as well as experience of working in a multinational context. These represent important transferable skills when seeking employment as well as in the HE context.
