Entry Requirements:

Entry requirements are subject to regular review. The entry requirements applicable to a particular academic year will be published on the University website (and externally as appropriate e.g. UCAS)

2017 Entry

- CCD from 'A' levels or equivalent
- BTEC National Diploma grade MMM, BTEC National Certificate DD
- BTEC QCF Extended Diploma grade MMM, BTEC QCF Diploma grade DD
- Access to HE Diploma full award (Pass of 60 credits - of which a minimum of 45 credits must be at level 3 including 18 at Merit or Distinction).
- Successful completion of the [International Foundation Year in Education, Health and Wellbeing](#)
- If you've got other qualifications or relevant experience, please contact [The Gateway](#) for further advice before applying.
- International entry requirements and application guidance can be found at <http://www.wlv.ac.uk/international/apply>

Other Requirements

Entry to this course requires a Disclosure and Barring Service (DBS) Check.

Students must have studied a minimum of two years post GCSE level. However, it is expected that some applicants will be mature students with work experience, who wish to further their career development. These applicants will be processed through standard procedures, which may involve an interview as part of the process. [Please see http://wlv.ac.uk/mature](http://wlv.ac.uk/mature) for further information.

Those who do not meet the entry requirements may be offered an alternative course.

Distinctive Features of the Course:

- This course involves work related study at every level.
- This unique course offers both academic rigour and professional relevance.
- The Department for Education currently approves level 3 practitioner status for students successfully completing the CAFS specialist degree. Though this will not apply to the integrated joint degree, it is a quality benchmark that underpins the CAFs based modules.

A placement can be undertaken anywhere; local, national or even, in some instances, international. During a placement, you will be doing similar work to a normal employee of the organisation giving you a unique insight into your chosen profession or sector, the opportunity to acquire crucial personal skills and also the opportunity to build a network of useful contacts. Many companies that employ graduates use placement programmes as a method of recruitment so you could be fast tracked into employment or onto one of their graduate schemes if you impress them.

The team at [The Workplace](#) constantly search for new placement opportunities but if you find an opportunity that interests you or you have been successful in securing one yourself, contact them for further information and support.

Educational Aims of the Course:

The BA (Hons) Childhood, Family Studies and Education Studies degree will develop the skills and knowledge required for a range of careers working with children, their families and the services that support them, in both education and social contexts. Students will also be able to identify and understand a variety of educational concepts and fields of enquiry. They will actively engage in investigating the cultural, sociological, psychological, political and linguistic dimensions of teaching and learning. The diversity of families, learners, classrooms and schools in contemporary society will be examined, alongside the impact of globalisation and international issues and perspectives.

The course is suitable for people new to this area or experienced staff searching for career development.

Work experience placements are an integral part of the course and can be negotiated in a variety of settings such as schools, nurseries, community care centres, hospitals, social services, libraries and other relevant settings.

Teaching and learning is designed to support digital literacy and students are encouraged to share knowledge and be enterprising with their ideas. An international perspective is taken to the degree and students will also have the opportunity to learn about how other countries support children, their families and learning.

Teaching, Learning and Assessment:

Learning will be face to face and on-line and will consist of the following:

- Lectures
- Seminars
- Tutorials
- Debates
- Small and large group work
- Discussion forums and wikis
- Student presentations
- Work based learning through placements (to support employability skills)
- Research activities
- Independent and guided study
- Collaborative on-line tasks and activities

- Individual on-line tasks and activities
- Video and image analysis
- Case studies
- Role play

The on-line activities and electronic presentations the students will prepare will support digital literacies.

The group tasks and seminars will support students' enterprising ideas.

The international perspectives to topics taken in lectures and learning tasks will support students' global citizenship.

Assessment Methods:

At the University of Wolverhampton, a variety of modes of assessment will be used to support and test your learning and progress and to help you develop capabilities that are valued beyond your University studies and into your working life. Your course may include a variety of assessment activities:

Written examinations (including online examinations, open and closed book examinations and quizzes)
 Coursework (for example, essays, reports, portfolios, project proposals and briefs, CVs, poster presentation)
 Practical (for example, oral and video presentations, laboratory work, performances, practical skills assessment)

In the final year of your undergraduate degree, and at the end of your postgraduate degree, you are likely to be expected to write an extended piece of work or research, such as a dissertation or a practice-based piece of research.

Student Support:

For all short modules there will be 2 hours face to face sessions per week and then an additional 2 hrs either face to face or on-line activities to support learning (eg via seminars or small group tasks).

For all long modules there will be 2 hours face to face sessions per week and appropriate on-line activities to support learning.

Study skills (such as using Harvard referencing and writing for academic purposes) are embedded in some modules at level 4 and extended at levels 5 and 6.

Students will receive feedback informally throughout the modules and formally through written feedback for their formative and summative assignments. This feedback will be constructive and indicate to students how to progress in their learning.

Students will be supported throughout their professional practice report by an allocated academic supervisor.

All students will have a personal tutor to support their progress through the course.

The learning centre provides learning support and resources. Many books and journals are also available electronically for the students to access to support their learning.

Employability in the Curriculum:

- You may go into teaching, lecturing or research in the field of Childhood and Education Studies
- There are a range of options in community care, family support, play work, youth work, nursery management, inclusion management, advocacy posts and charities.
- If you want to become a teacher you can progress to a Postgraduate Certificate in Education for Primary School Teaching (PGCE Primary)
- You could also choose to apply for a Master's Degree in Social Work or gain further qualifications as a

play therapist or youth counsellor.

Other opportunities include: researcher roles, local authority positions, mentoring and advocacy posts, inclusion managers and positions within support groups and charities.

The completion of a Sandwich Year will enable you to gain valuable hands on experience in a relevant work environment. This will not only provide additional practical subject skills but it will also develop personal transferable skills such as communication skills, problem solving skills and demonstrate competency in working with other people. This will increase your employability and assist you in gaining employment in the future.
