Status:	Validated

Core Information

Awarding Body / Institution:	University of Wolverhampton		
School / Institute:	School of Architecture and Built Environment		
Course Code(s):	EH001H01UV	Full-time	3 Years
	EH001H34UV	Part-time Day and Evening	6 Years
Course Title:	BSc (Hons) Environmental Health		
Hierarchy of Awards:	Bachelor of Science with Honours Environmental Health Bachelor of Science Environmental Health Studies Diploma of Higher Education Environmental Health Studies Certificate of Higher Education Environmental Health Studies University Statement of Credit University Statement of Credit		
Language of Study:	English		
Date of DAG approval:	17/May/2017		
Last Review:	2015/6		
Course Specification valid from:	2009/0		
Course Specification valid to:	2021/2		

Academic Staff

Course Leader:	Dr Ian Hooper
Head of Department:	Mr Paul Hampton

Course Information

Location of Delivery:	University of Wolverhampton
Category of Partnership:	Not delivered in partnership
Teaching Institution:	University of Wolverhampton
Open / Closed Course:	This course is open to all suitably qualified candidates.

Entry Requirements:

Entry requirements are subject to regular review. The entry requirements applicable to a particular academic year will be published on the University website (and externally as appropriate e.g. UCAS)

2017 Entry

- GCSE English and Maths at grade C+/4 or equivalent.

Plus either

- A Level should be a minimum of BB or CCE to include one science subject.
- For applicants studying an Access to Higher Education Diploma in Science you must pass 60 credits, at least 45 of which are at Level 3, of which 18 Level 3 credits must be in Science at 'merit' or 'distinction' credits.
- BTEC QCF Extended Diploma MMP.
- If you've got other qualifications or relevant experience, please contact [The Gateway](#) for further advice before applying.
- International entry requirements and application guidance can be found [here](#)
- Successful completion of the [International Foundation Year in Science and Engineering](#) guarantees entry on to this course

Other Requirements

Students must have studied a minimum of two years post GCSE level. However, it is expected that some applicants will be mature students with work experience, who wish to further their career development. These applicants will be processed through standard procedures, which may involve an interview as part of the process. Please see <http://wlv.ac.uk/mature> for further information.

Those who do not meet the entry requirements may be offered an alternative course

Distinctive Features of the Course:

This course is accredited by the Chartered Institute of Environmental Health and offers graduates a route into becoming Chartered Environmental Health Practitioners. The main focus of the course is to prepare students for a career in environmental health whether it is in the public or private sectors. Career opportunities are very broad and can lead to working in the UK or overseas. Graduates can expect to work as auditors, consultants or regulators in a wide range of areas and organisations. Understandably, it is very practical course, and is delivered by a mixture of practitioners and academic staff with research and consultancy experience related to the breadth of environmental health. Expert input into the course is key and there are extensive links with practitioners in Local Authorities and the private sectors.

The course includes the development of theoretical and practical skills covering the five areas of environmental health; food safety, housing, environmental protection, public health and health and safety. Students learn about law and practice, how the environment impacts on health and how to investigate to a criminal standard and take enforcement action. Students also develop their soft skills to include, communication, self-management, problem solving, having confidence when dealing with people etc. and these transferable skills are useful in all aspects of life.

To compliment classroom teaching the course also features an extensive range of site visits to include Harrods, Portsmouth Port Health Authority, retail outlets, factories, food manufacturers, construction sites, magistrates court, coroners court, inspecting food traders at a large music festival and many others.

Educational Aims of the Course:

The course aims to:

- Provide a practically-based course to provide the experience, training and personal and professional values necessary to allow graduates to become EH practitioners
- Develop multidisciplinary knowledge and understanding of the vital and complex areas of environmental health.
- Protect public health through experience of critical analysis of those areas which threaten health.

Course Structure:

September (Full-Time)

Year 3

Full time and Sandwich Undergraduate Honours students normally study 120 credits per academic year; 60

credits semester 1 and 60 credits semester 2.

Module	Title	Credits	Period	Type
6CN010	Built Environment Dissertation	20	YEAR	Core
6EH002	Environmental Protection	20	YEAR	Core
6EH008	Professional Skills and Conduct	20	SEM1	Core
6EH005	Control of Water and Foodborne Disease	20	SEM2	Core
6EH001	Environmental Health Practice (Health and Safety and Food)	20	SEM1	Core
6EH003	Environmental Health Practice (Public Health/Housing/Environmental Protection)	20	SEM2	Core

September (Full-Time)

Year 1

Full time and Sandwich Undergraduate Honours students normally study 120 credits per academic year; 60 credits semester 1 and 60 credits semester 2.

Module	Title	Credits	Period	Type
4EH003	Environmental Health in Context	20	YEAR	Core
4EH004	Personal and Professional Skills	20	YEAR	Core
4EH002	Human Health and the Environment	20	SEM1	Core
4EH001	The Natural Environment	20	SEM1	Core
4EH009	Public Health	20	SEM2	Core
4EH012	Health and Safety in the Workplace	20	SEM2	Core

September (Full-Time)

Year 2

Full time and Sandwich Undergraduate Honours students normally study 120 credits per academic year; 60 credits semester 1 and 60 credits semester 2.

Module	Title	Credits	Period	Type
5EH002	Analytical and Practical Skills in Environmental Health	20	YEAR	Core
5EH004	Legal Enforcement and Compliance	20	YEAR	Core
5EH005	Environmental Pollution: Law and Practice	20	SEM1	Core
5EH008	Regulation and Management of Health and Safety	20	SEM1	Core
5EH009	Food Safety Law and Practice	20	SEM2	Core
5EH003	Housing and Law	20	SEM2	Core

Continuing students will follow the programme indicated below:

September (Full-Time)

Year 3

Full time and Sandwich Undergraduate Honours students normally study 120 credits per academic year; 60 credits semester 1 and 60 credits semester 2.

Learning Outcomes:

CertHE Course Learning Outcome 1 (CHECLO1)

Demonstrate knowledge of the underlying concepts and principles associated with your area(s) of study, and an ability to evaluate and interpret these within the context of that area of study.

CertHE Course Learning Outcome 2 (CHECLO2)

Demonstrate an ability to present, evaluate and interpret qualitative and quantitative data, in order to develop lines of argument and make sound judgements in accordance with basic theories and concepts of your subject(s) of study.

CertHE Course Learning Outcome 3 (CHECLO3)

Evaluate the appropriateness of different approaches to solving problems related to your area(s) of study and/or work.

CertHE Course Learning Outcome 4 (CHECLO4)

Communicate the results of your study/work accurately and reliably, and with structured and coherent arguments.

CertHE Course Learning Outcome 5 (CHECLO5)

Demonstrate the qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility.

DipHE Course Learning Outcome 1 (DHECLO1)

Demonstrate knowledge and critical understanding of the well-established principles of your area(s) of study, and of the way in which those principles have developed with an understanding of the limits of your knowledge, and how this influences analyses and interpretations based on that knowledge.

DipHE Course Learning Outcome 2 (DHECLO2)

Demonstrate the ability to apply underlying concepts and principles outside the context in which they were first studied, including, where appropriate, the application of those principles in an employment context

DipHE Course Learning Outcome 3 (DHECLO3)

Demonstrate knowledge of the main methods of enquiry in the subject(s) relevant to the named award, and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study.

DipHE Course Learning Outcome 4 (DHECLO4)

Use a range of established techniques to initiate and undertake critical analysis of information, and to propose solutions to problems arising from that analysis.

DipHE Course Learning Outcome 5 (DHECLO5)

Effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences, and deploy key techniques of the discipline effectively.

DipHE Course Learning Outcome 6 (DHECLO6)

Demonstrate the qualities and transferable skills necessary for employment, requiring the exercise of personal responsibility and decision-making and undertake further training, developing existing skills and acquire new competences that will enable them to assume significant responsibility within organisations.

Ordinary Degree Course Learning Outcome 1 (ORDCLO1)

Critically analyse the implications of biological, chemical, physical, social and psychosocial stressors on human health in relation to food safety, health and safety, housing, environmental protection and public health

Ordinary Degree Course Learning Outcome 2 (ORDCLO2)

Apply the legislative framework related to environmental health

Ordinary Degree Course Learning Outcome 3 (ORDCLO3)

Collect, critically appraise data and information to make informed decisions and formulate appropriate solutions

Ordinary Degree Course Learning Outcome 4 (ORDCLO4)

Demonstrate cognitive and communication skills in relation to the application of knowledge and judgment to identify and make effective interventions to protect public health

Ordinary Degree Course Learning Outcome 5 (ORDCLO5)

Develop personal and professional development skills through engagement with self-managed and reflective learning

Honours Degree Course Learning Outcome 1 (DEGCLO1)

Critically analyse the implications of biological, chemical, physical, social and psychosocial stressors on human health in relation to food safety, health and safety, housing, environmental protection and public health

Honours Degree Course Learning Outcome 2 (DEGCLO2)

Apply the legislative framework related to environmental health

Honours Degree Course Learning Outcome 3 (DEGCLO3)

Collect, critically appraise data and information to make informed decisions and formulate appropriate solutions

Honours Degree Course Learning Outcome 4 (DEGCLO4)

Demonstrate cognitive and communication skills in relation to the application of knowledge and judgment to identify and make effective interventions to protect public health

Honours Degree Course Learning Outcome 5 (DEGCLO5)

Develop personal and professional development skills through engagement with self-managed and reflective learning

Overview of Assessment:

Module	Title	Course Learning Outcomes
4EH001	The Natural Environment	CHECLO1, CHECLO2, CHECLO3, CHECLO4
4EH002	Human Health and the Environment	CHECLO1, CHECLO2, CHECLO3, CHECLO4
4EH003	Environmental Health in Context	CHECLO1, CHECLO2, CHECLO3, CHECLO4
4EH004	Personal and Professional Skills	CHECLO1, CHECLO2, CHECLO3, CHECLO4, CHECLO5
4EH009	Public Health	CHECLO1, CHECLO2, CHECLO3, CHECLO4
4HW002	The Impact of Work on Health	CHECLO1, CHECLO2, CHECLO3, CHECLO4
5EH002	Analytical and Practical Skills in Environmental Health	DHECLO1, DHECLO2, DHECLO3, DHECLO4, DHECLO5
5EH003	Housing and Law	DHECLO1, DHECLO2, DHECLO3, DHECLO4, DHECLO5
5EH004	Legal Enforcement and Compliance	DHECLO1, DHECLO2, DHECLO3, DHECLO4, DHECLO5
5EH005	Environmental Pollution: Law and Practice	DHECLO1, DHECLO2, DHECLO3, DHECLO4, DHECLO5
5EH007	Work Experience	DHECLO1, DHECLO2, DHECLO3, DHECLO4, DHECLO5, DHECLO6
5EH008	Regulation and Management of Health and Safety	DHECLO1, DHECLO2, DHECLO3, DHECLO4, DHECLO5
5EH009	Food Safety Law and Practice	DHECLO1, DHECLO2, DHECLO3, DHECLO4, DHECLO5
6EH001	Environmental Health Practice (Health and Safety and Food)	DEGCLO1, DEGCLO2, DEGCLO3, DEGCLO4, DEGCLO5, ORDCLO1, ORDCLO2, ORDCLO3, ORDCLO4, ORDCLO5
6EH002	Environmental Protection	DEGCLO1, DEGCLO2, DEGCLO3, DEGCLO4, ORDCLO1, ORDCLO2, ORDCLO3, ORDCLO4
6EH003	Environmental Health Practice (Public Health/Housing/Environmental Protection)	DEGCLO1, DEGCLO2, DEGCLO3, DEGCLO4, DEGCLO5, ORDCLO1, ORDCLO2, ORDCLO3, ORDCLO4, ORDCLO5
6EH004	Research Project in Environmental Health	DEGCLO3, DEGCLO4, DEGCLO5, ORDCLO3, ORDCLO4, ORDCLO5
6EH005	Control of Water and Foodborne Disease	DEGCLO1, DEGCLO3, DEGCLO4, ORDCLO1, ORDCLO3, ORDCLO4
6EH008	Professional Skills and Conduct	DEGCLO3, DEGCLO4, DEGCLO5, ORDCLO3, ORDCLO4, ORDCLO5

Teaching, Learning and Assessment:

A wide variety of learning activities are provided throughout the course including lectures, tutorials, workshops, laboratory practical work, fieldwork, field visits, case studies, project work, problem based learning, on-line exercises, computer workshops, structured laboratory classes, group work, an individual research project, and the promotion of reflective/ self managed learning

The three graduate attributes are embedded throughout the course at all levels, with examples below;

Digital literacy skills are developed at level 4 through the Personal and Professional Skills module that covers use of spreadsheets, data management, on-line exercises, data analysis and interpretation and the use of e-

portfolio through CANVAS and Pebblepad. Other modules that extend digital literacy skills include 4HW003 through webquests and on-line collaboration via CANVAS and wikis. Subject specific systems such as Geographical Information Systems (GIS) are integrated into 5EH002 Analytical and Field Skills.

Knowledgeable and enterprising The course is designed to develop knowledge and skills at level 4 and 5, whilst engendering enquiring and reflective practice so that by level 6 students can apply the holistic approach to environmental health required of Environmental Health Practitioners.

Global citizen The nature of the course is that local, regional, national and international issues related to the environment, public health, housing and neighbourhoods, food and health and safety are integral at all levels to produce a graduate with professional skills appropriate for progression to registration and practice as an Environmental Health Practitioner.

Learning and Teaching Methods:

This data indicates the proportion of time in each year of study that students can expect to engage in the following activities (expressed as a percentage for each level).

Level	Teaching	Independent	Placement
4	23	77	0
5	22	78	0
6	29	71	0

Assessment Methods:

This data indicates the proportion of summative assessment in each year of study that will derive from the following: (expressed as a percentage for each level).

Level	Written Exams	Practical Exams	Coursework
4	8	0	92
5	7	0	93
6	8	11	81

Student Support:

Academic study skills and digital literacy skills are introduced at level 4 in Personal and Professional skills (4EH004), further developed within Analytical and Fieldwork Skills (5EH002) at Level 5, and applied in the Research Project (6EH004) and practice based modules (6EH001 and 6EH003) at Level 6.

Although the course is managed by the Faculty of Science and Engineering, the Course Management Team involving academic colleagues from the Faculty of Education Health and Wellbeing meet at least monthly to ensure cohesiveness of the student experience.

FSE has well developed support systems through the School Student Support Office, demonstrators Personal Tutors, IT support and technical support.

Employability in the Curriculum:

The course is vocational and a requirement for progression to registration as an Environmental Health Practitioner. The course provides a curriculum experience that will provide a foundation for EHP qualification, upon which students may develop their Experiential Learning Portfolio and professional examinations for the CIEH. Graduates will be able to follow the route to registration as EHPs or progress to

further postgraduate academic study. Career opportunities for EHPs exist within Local Authorities in enforcement roles in generic and specialist areas of Environmental Health. EHPs are also employed within other sectors for example by major retailers, consultancy groups, travel companies and the armed forces.

THE UNIVERSITY OF OPPORTUNITY
