Entry Requirements:

Entry requirements are subject to regular review. The entry requirements applicable to a particular academic year will be published on the University website (and externally as appropriate e.g. UCAS

2017 Entry

- DD from A level
- BTEC QCF Extended Diploma grade PPP, BTEC QCF Diploma grade MP
- Pass Access to HE Diploma (Full Award)
- If you've got other qualifications or relevant experience, please contact <u>The Gateway</u> for further advice before applying.
- International entry requirements and application guidance can be found here

Other Requirements

Students must have studied a minimum of two years post GCSE level. However, it is expected that some applicants will be mature students with work experience, who wish to further their career development. These applicants will be processed through standard procedures, which may involve an interview as part of the process. Please see http://wlv.ac.uk/mature for further information.

Applicants who do not meet the entry requirements may be offered an alternative course.

Distinctive Features of the Course:

One of the phenomena of the 21st century has been that of globalisation. This course equips students with the knowledge and expertise to manage within this global framework. As globalisation increases, more organisations have to work beyond their regional boundaries, compete in diverse global environments and find that their traditional domestic markets are open to global challenges. These organisations need experts who can work across multicultural barriers, develop effective international strategies and source products internationally. This course will train students in these business key areas.

You can develop the skills and knowledge that you need to study at undergraduate level, building on your strengths and working on your weaknesses, so that you can feel confident that by the end you are ready to commence a degree course, and to apply the skills to undertake the directed and independent learning which will help you to achieve your potential. This will allow you to embark on Level 4 study in an appropriate undergraduate discipline or combined award, confident that you have developed the skills and chosen the most relevant subject area(s) to specialise in, which will allow you to perform strongly at degree level and enhance your career aims.

Educational Aims of the Course:

The Foundation Year will introduce you to studying at university. You will develop your academic and study skills alongside studying modules that introduce you to the disciplines offered by courses across the Faculty. The Foundation Year will therefore provide a springboard for successful study at levels 4, 5 and 6.

The course will provide an interdisciplinary approach to global citizenship and will help students develop their own understanding of complex notions in the international business environment. Additionally, the

course will help students develop Digital Literacy skills through the use of applications software employed by contemporary organisations. The development of student knowledge and understanding of a range of international business and management practices and the ability to apply them effectively in an entrepreneurial and innovative manner will also be emphasised, as it is recognised that entrepreneurship is a key force for successful economic growth.

Teaching, Learning and Assessment:

Students are required to locate and evaluate appropriate digital information sources related to the issues considered in the modules on this course. They are also expected to participate in class forum activities on the VLE.

Student participation in a range of in-class discussions and activities is expected in order to consider theory and practice related to various topics covered in the modules.

The international nature of this course means that students will be researching and discussing from a range of

perspectives the theory and evidence in the context of global business and management; this will enable them to develop personal and professional values that would help them play a substantial role in a global business environment.

Assessment Methods:

At the University of Wolverhampton, a variety of modes of assessment will be used to support and test your learning and progress and to help you develop capabilities that are valued beyond your University studies and into your working life. Your course may include a variety of assessment activities:

Written examinations (including online examinations, open and closed book examinations and quizzes)
Coursework (for example, essays, reports, portfolios, project proposals and briefs, CVs, poster presentation)
Practical (for example, oral and video presentations, laboratory work, performances, practical skills assessment)

In the final year of your undergraduate degree, and at the end of your postgraduate degree, you are likely to be expected to write an extended piece of work or research, such as a dissertation or a practice-based piece of research.

Student Support:

General University support:

<u>University Learning Centres</u> are the key source of academic information for students. Learning Centres provide physical library resources (books, journal, DVDs etc.) and offer a range of study areas to allow students to study in the environment that suit them best: Social areas, quiet and silent areas. Learning Centres also provide access to wide range of online information sources, including eBooks, e-Journals and subject databases.

Learning Centres also provide students with academic skills support via the <u>Skills for Learning programme</u>. Students on campus can attend workshops or ask for one-to-one help on a range of skills such as academic writing and referencing. Students can access a range of online skills material at: www.wlv.ac.uk/lib/skills

The <u>University Student Support website</u> offers advice on a variety of matters (careers, counselling, student union advice, etc.) Students can also access these services by booking appointment with the SU, careers, counselling services, etc.

There are many levels of support that will be available for students learning on this course, including Personal Tutor, Course Leader, and members of the Learning Centres, Faculty Enabling Tutor (FET), and different assessment methods.

A Personal Tutor will be allocated to every student and will maintain regular communication (virtual and/or face-to-face) with each of their designated tutees in order to assist students in their personal and academic development, planning and progression. In addition to offering advice and guidance, the Personal Tutor will help students liaise with other staff in their school and the University in order to obtain support, including study skills support.

The Course Leader will monitor the academic and experiential quality of the Course through Award Boards, focus groups and other channels. Course Leader will also support and direct students proactively on the Course, and will respond to inquiries and requests from students with regard to the academic programme of study.

Faculty Enabling Tutor (FET), will liaise with the Student Enabling Centre (SEC) regarding provision for specific disabled students, and disseminate information from the SEC on the needs of specific disabled students. The FET will also monitor requests for, and provision of, specific examination and assessment arrangements, publicise "surgery" arrangements and make available time to meet with individual disabled students to enable them to discuss their own school-specific disability issues where necessary. The FET will take a pro-active role in monitoring the welfare and academic progress of disabled students within the school.

In-class semester assessments are arranged by the Module tutor, who will, where appropriate, ensure that any arrangements made for students requiring special consideration will be checked by the University Student Enabling Centre to ensure fairness and equability, and that the provisions of the University Equal Opportunities policy are met. These arrangements will apply to those students who have identified special learning requirements.

Members of the Learning Centres are invited to speak to students about accessing printed and electronic resources and provide support for research. LIS also provide a number of electronic resources including podcasts, which can support distance learners in these areas. The 'skills for learning' skills support facility can be accessed electronically via www.wlv.ac.uk/lib/skills

Employability in the Curriculum:

This course equips students with the knowledge and expertise to manage within the global framework. It has been achieved through up to date industrial database cross countries; digital literacy skills through the use of applications software employed by contemporary organisations; the ability to apply management practices effectively in an entrepreneurial and innovative manner. This course provides access to a range of career opportunities, such as business analyst, supply manager, relationship manager and project managers under multi-culture (nation) operational settings.
