Distinctive Features of the Course:

During your Foundation year you can develop the skills and knowledge that you need to study at undergraduate level, building on your strengths and working on your weaknesses, so that you can feel confident that by the end you are ready to commence a degree course, and to apply the skills to undertake the directed and independent learning which will help you to achieve your potential. This will allow you to embark on Level 4 study in an appropriate undergraduate discipline or combined award, confident that you have developed the skills and chosen the most relevant subject area(s) to specialise in,

All of our foundation modules are taught in small subject-specific groups. Several of the modules on the foundation part of the degree are assessed via portfolio, so lots of tasks contribute to your final grade. This means that we can give you credit for the things that you do best, and give you support to identify areas of strength and areas for potential development which will allow you to perform strongly at degree level and enhance your career aims.

For the foundation part of the degree you will study two taught modules per semester, in the autumn semester you will study one 40 credit study skills module, this is designed to help you get to grips with university life and to gain the skills you need to exceed at degree level. The other 20 credit module contains subject-specific content, so you begin learning your subject from day one. In the spring semester you will take one subject-specific module, plus your individual project, this guarantees you weekly one-to-one sessions with a subject-specific member of our team, in these sessions you will work with your tutor to develop your own project on what interests you the most. For the degree part of the course you will study three modules per semester.

Educational Aims of the Course:

This course prepares you for the world of work in the fields of linguistics and TESOL. This can lead to jobs in the education, medical, research and creative industries.
