Course Title:	BSc (Hons) Specialist Community Public Health Nursing/Health Visiting (Top up)		
Hierarchy of Awards:	Bachelor of Science with Honours Specialist Community Public Health Nursing (Health Visiting) Bachelor of Science Health Studies University Statement of Credit University Statement of Credit		
Language of Study:	English		
Date of DAG approval:			
Last Review:	2017/8		
Course Specification valid from:	2017/8		
Course Specification valid to:	2023/4		

Academic Staff

Course Leader:	Mr Paul Reynolds
Head of Department:	Dr Julian Barratt

Course Information

Location of Delivery:	University of Wolverhampton
Category of Partnership:	Not delivered in partnership
Teaching Institution:	University of Wolverhampton
Open / Closed Course:	This course is open to all suitably qualified candidates.

Entry Requirements:

Entry requirements are subject to regular review. The entry requirements applicable to a particular academic year will be published on the University website (and externally as appropriate e.g. UCAS)

Students must be a Level 1 Registered Nurse and/or Midwife on either Part 1 or Part 2 of the Nursing and Midwifery Council Register.

They must be seconded or sponsored by a Primary Care Trust or equivalent employer.

The minimum academic entry requirement is 120 Level 4 credits and 120 Level 5 credits. This can be obtained through study including Accreditation of Prior Learning (APL) process which is up to a maximum of one third of a programme (see NMC Circular 01/2011).

Students will be required to undertake a CRB check and occupational health clearance which is arranged by the sponsoring or seconding organisation.

Distinctive Features of the Course:

Students accessing this course are from a wide range of areas from within the West Midlands area. Networking between students is encouraged and considered to be a strength of the course as evidenced in previous student course evaluations. There is an active practice teacher network forum and practice teachers are provided with an annual update each year along with other professional development opportunities. Students are also visited individually in practice by a member of the course team to provide additional support.

Students will be required to undertake fifteen days' alternative public health experience in order to enable them to experience the breadth of public health services available. In addition, students will have the opportunity to undertake the V100 Nurse Prescribing qualification as part of the award. The health visiting award has a designated full time member of staff who acts as course leader and who has expertise in the specific field of practice that the student is studying and as well as having experience of working as a practitioner in the same specialist area. In addition, the award, course leader and course team have engaged in research, published books, chapters and journal articles within the subject area, acts as external examiners for other HEI's and are members of national professional groups and forums.

Educational Aims of the Course:

The BSc (Hons) Specialist Community Public Health Nursing (Health Visiting) degree programme aims to:

1. Develop competent, safe and professional Specialist Community Public Health Nursing practitioners who are fit for practice in the designated field of health visiting practice and who, on completion of the course, are able to register on the third part of the Nursing and Midwifery register.
2. Equip practitioners with the knowledge, skills and understanding to evaluate, enhance and develop their public health practice
3. Develop and enhance leadership and management skills within the context of public health nursing practice to support others and to benefit the health of children, families and communities.
4. Enable practitioners to adopt critical reflective practice and lifelong learning that fosters a spirit of scientific enquiry and research promoting personal and professional development.

5. Equip practitioners with cognitive skills and knowledge to lead, innovate, advocate change and contribute to an evidence base of practice in order to benefit the health of children, families and communities.
6. Support practitioners to work with codes and standards of professional practice to protect human rights, promote equality and manage risk to deliver safe effective health care.
7. Engage practitioners in interdisciplinary and interprofessional working and practices.
8. To develop and integrate the underpinning theory and practice to prepare specialist practitioners to prescribe safely, appropriately and cost effectively from the Nurse Prescribers formulary for Community Practitioners (optional element of course).

September (Part-time)

Year 5

Full time & Sandwich Undergraduate Honours students normally study 120 credits per academic year; 40 credits year long, 40 credits semester 1 and 40 credits semester 2.

Module	Title	Credits	Period	Type
6NH050	Examining Public Health in Specialist Practice	20	SEM1	Core
6NH044	Perspectives of Child Development	20	SEM1	Core
6NH049	Appraising the evidence within a specialist context	20	SEM2	Core
6NH045	Safeguarding children, young people and families	20	SEM2	Core

Please note: Optional modules might not run every year, the course team will decide on an annual basis which options will be running, based on student demand and academic factors, to create the best learning experience.

Learning, Teaching and Assessment

Academic Regulations Exemption:

Exemption from the following undergraduate Regulation clauses in order to satisfy Professional Body (NMC) requirements;

Section 1.2.3 - The programme is 52 weeks in duration in order to meet the requirements of the NMC and is delivered outside the standard University Academic Calendar.

Section 4.3.5 - Students will not be able to carry over any failure or repeat a module due to contractual arrangements with NHS Strategic Health Authorities and sponsoring organisations.

Section 4.4.3 - Students will not be awarded compensation for marginal failure on any modules in accordance with the requirements of the NMC (third attempts are permitted).

Section 5.1.1 - Students will need to pass all 120 credits at Level 6 and including practice based competencies as regulated by the NMC. Students who do not pass these practice competencies will not be entitled to a professionally accredited qualification but may be eligible to exit with a non-accredited honours degree (e.g; BSc (Hons) Health Studies).

APPROVED by AFRSC on 17th March 2011.

Learning Outcomes:

Ordinary Degree Course Learning Outcome 1 (ORDCLO1)

"Demonstrate a systematic understanding of key aspects of your field of study, including acquisition of coherent and detailed knowledge, at least some of which is at, or informed by, the forefront of defined aspects of a discipline with an appreciation of the uncertainty, ambiguity and limits of knowledge"

Ordinary Degree Course Learning Outcome 2 (ORDCLO2)

"Demonstrate an ability to deploy accurately established techniques of analysis and enquiry within a discipline and apply the methods and techniques that they have learned to review, consolidate, extend and apply your knowledge and understanding, and to initiate and carry out projects"

Ordinary Degree Course Learning Outcome 3 (ORDCLO3)

"Demonstrate conceptual understanding that enables the student: • to devise and sustain arguments, and/or to solve problems, using ideas and techniques, some of which are at the forefront of a discipline • to describe and comment upon particular aspects of current research, or equivalent advanced scholarship, in the discipline"

Ordinary Degree Course Learning Outcome 4 (ORDCLO4)

"Demonstrate the ability to manage your own learning, and to make use of scholarly reviews and primary sources (for example, refereed research articles and/or original materials appropriate to the discipline) and communicate information, ideas, problems and solutions to both specialist and non-specialist audiences"

Ordinary Degree Course Learning Outcome 5 (ORDCLO5)

"Critically evaluate arguments, assumptions, abstract concepts and data (that may be incomplete), to make judgements, and to frame appropriate questions to achieve a solution - or identify a range of solutions - to a problem"

Ordinary Degree Course Learning Outcome 6 (ORDCLO6)

Demonstrate the qualities and transferable skills necessary for employment requiring: • the exercise of initiative and personal responsibility • decision-making in complex and unpredictable contexts • the learning ability needed to undertake appropriate f

Honours Degree Course Learning Outcome 1 (DEGCLO1)

"Demonstrate knowledge, skills and understanding of the theories, concepts and evidence base of Specialist Community Nursing practice."

Honours Degree Course Learning Outcome 2 (DEGCLO2)

Critically examine and analyse a range of approaches which underpin specialist community public health nursing practice in order to meet the health needs of vulnerable children, families and communities and help reduce inequalities.

Honours Degree Course Learning Outcome 3 (DEGCLO3)

"Critically analyse how the development of health and social policies, health care initiatives and other drivers influence the delivery of client care and impact upon professional practice. "

Honours Degree Course Learning Outcome 4 (DEGCLO4)

"Demonstrate competence within your own area of professional practice in relation to leadership, innovation and entrepreneurialism."

Honours Degree Course Learning Outcome 5 (DEGCLO5)

"Work in collaboration with other disciplines, professions and agencies in order to enhance and promote effective client care and safeguard vulnerable groups."

Honours Degree Course Learning Outcome 6 (DEGCLO6)

Critically evidence how the NMC Standards for Specialist Community Nursing in relation to the chosen field of practice have been achieved.

Overview of Assessment:

Module	Title	Course Learning Outcomes
6NH044	Perspectives of Child Development	DEGCLO1, DEGCLO2, DEGCLO3, DEGCLO5, DEGCLO6, ORDCLO1, ORDCLO2, ORDCLO3, ORDCLO5, ORDCLO6
6NH045	Safeguarding children, young people and families	DEGCLO1, DEGCLO2, DEGCLO3, DEGCLO5, DEGCLO6, ORDCLO1, ORDCLO2, ORDCLO3, ORDCLO5, ORDCLO6
6NH049	Appraising the evidence within a specialist context	DEGCLO1, DEGCLO2, DEGCLO3, DEGCLO4, DEGCLO5, DEGCLO6, ORDCLO1, ORDCLO2, ORDCLO3, ORDCLO4, ORDCLO5, ORDCLO6
6NH050	Examining Public Health in Specialist Practice	DEGCLO1, DEGCLO2, DEGCLO3, DEGCLO6, ORDCLO1, ORDCLO2, ORDCLO3, ORDCLO6
6NH051	Specialist Community Public Health Nursing - School Nursing and Health Visiting	DEGCLO1, DEGCLO2, DEGCLO3, DEGCLO4, DEGCLO5, DEGCLO6
6NH053	Leadership, Management and Innovation In Specialist Practice	DEGCLO1, DEGCLO3, DEGCLO4, DEGCLO5, DEGCLO6, ORDCLO1, ORDCLO3, ORDCLO4, ORDCLO5, ORDCLO6

Teaching, Learning and Assessment:

A range of learning activities will be utilised to support the outcome of the learning outcomes of the course. These will include interactive lectures and presentations, VLE, seminars, workshops, practice related activities, group and individual tutorials, enquiry based learning, action learning, self directed study and reflection.

Students will spend 50% of the programme in practice with their sponsoring or seconded Primary Care Trust/employing organisation. They will be supported in practice by an identified qualified practice assessor who will assist the student in meeting their learning needs and assess their competency against the NMC (2004) Standards of Proficiency for Specialist Community Public Health Nursing.

Assessment Methods:

At the University of Wolverhampton, a variety of modes of assessment will be used to support and test your learning and progress and to help you develop capabilities that are valued beyond your University studies and into your working life. Your course may include a variety of assessment activities:

Written examinations (including online examinations, open and closed book examinations and quizzes)
 Coursework (for example, essays, reports, portfolios, project proposals and briefs, CVs, poster presentation)
 Practical (for example, oral and video presentations, laboratory work, performances, practical skills assessment)

In the final year of your undergraduate degree, and at the end of your postgraduate degree, you are likely to be expected to write an extended piece of work or research, such as a dissertation or a practice-based piece of research.

Student Support:

Students will be supported throughout the course by:-

The Award Leader and the designated Course Leader for the field of practice they are studying i.e. Health Visiting. Each course leader is a registered NMC teacher and has subject specific knowledge and expertise within the same field of nursing that the student is studying.

Each student is allocated an academic assessor (the course leader or another designated member of the course team experienced in the same field of practice).

The Module Leader who will provide academic support for the student on the module.

The practice assessor will facilitate and support opportunities for learning within the practice environment. The practice assessor will ensure that appropriate and relevant learning experiences are available and will supervise, monitor and assess that the student has achieved the learning outcomes for practice.

In addition to the campus-based libraries which provide special support, the University provides a range of support for you to develop the skills required for successful academic study. These include:

[Infobites](#)

[Academic Writing Skills](#)

[Referencing](#)

[EndNote](#)

[PebblePAD](#)

[IT Services self-help guides](#)

[Study Skills](#)

[Skills for learning](#)

[Assist](#)

[ASSISTThe Student Enabling Centre](#)

The Faculty provides additional support:

FEHW Student Advisors

Your Academic Assessor

The Module Leader and module team members

Within the induction programme there are dedicated face to face sessions on study skills, referencing and details on how to contact and access the above support services. Students will also be informed about the range of electronic study skills support available to them on a regular basis both within the induction period and in the delivery of each module. Within pre-course materials students are directed to a range of resources in relation to study skills focusing on activities such as how to write an assignment, making effective lecture notes, etc.

Employability in the Curriculum:

Throughout the course students will have the opportunity to develop and demonstrate a number of key skills to enhance their employability, some of these are listed below:

- Work effectively as part of a group and be involved in interprofessional working practices.
- Demonstrate teamwork, leadership skills and be able to manage and resolve conflict
- Be independent and self directing in their own learning
- Develop effective communication skills both written (via reports etc.) and oral (through formal presentations)
- Problem-solve and make sound judgements and complex decisions.
- Develop IT skills (which include use of basic packages for word processing, spreadsheets, use of email, virtual learning environments etc.)
- Time management and show the ability to be able to prioritise
- Manage change and seek out innovative opportunities in order to enhance practice and service delivery
- Develop knowledge, skills and understanding relating to public health nursing.
- Demonstrate competence as a specialist community nurse by achieving the NMC Standards for specialist community public health nursing.
- On successful completion of the course students will be eligible to register on Part 3 of the Nursing and Midwifery Council Register. This will enable them to work as Specialist Community Public Health Nurses within the field of Health Visiting.

THE UNIVERSITY OF OPPORTUNITY
