Course Specification valid from:	2017/8		
Course Specification valid to:	2023/4		

Academic Staff

Course Leader:	Mrs Lisa Clarke
Head of Department:	Dr Julian Barratt

Course Information

Location of Delivery:	University of Wolverhampton
Category of Partnership:	Not delivered in partnership
Teaching Institution:	University of Wolverhampton
Open / Closed Course:	This course is open to all suitably qualified candidates.

Entry Requirements:

Entry requirements are subject to regular review. The entry requirements applicable to a particular academic year will be published on the University website (and externally as appropriate e.g. UCAS)

Students must be a Level 1 Registered Nurse and/or Midwife on either Part 1 or Part 2 of the Nursing and Midwifery Council Register.

They must be seconded or sponsored by a Primary Care Trust or equivalent employer.

The minimum academic entry requirement is 120 level 4 credits, 120 level 5 credits and 120 level 6 credits. The degree must normally be in a health related field. However, it maybe possible for a student to enter the Master's programme without a first degree if they are able to provide evidence of their suitability to study at masters level e.g. publications, research proposals, conference papers, portfolio of written work etc Accreditation of Prior Learning will be considered in line with NMC guidance for APL (up to one third of a programme see NMC Circular 01/2011).

Students will be required to undertake a CRB check and occupational health clearance which is arranged by the sponsoring or seconding organisation.

Distinctive Features of the Course:

Students accessing this course will be from a wide range of areas within the West Midlands. Networking between students is encouraged and considered to be a strength of the course as evidenced in previous student course evaluations. Mentors are encouraged to participate in a practice teacher network forum and practice teachers/mentors are provided with an annual update each year along with other professional development opportunities. Students are also visited individually in practice by the course leader to provide additional support.

The general practice nursing award has a designated full time member of staff who acts as course leader and who has expertise in the specific field of practice that the student is studying, as well as having experience of working as a practitioner in the same specialist area. In addition staff within the award team have engaged in research, published books, chapters and journal articles within the field of community nursing and public health, act as external examiners for other HEI's and are active members of national professional groups and forums.

Students completing a post graduate diploma will be able to undertake a dissertation module (subject to funding) in order to complete an MSc in primary care.

Educational Aims of the Course:

The Post Graduate Diploma Specialist Community Nursing (General Practice Nursing) programme aims to:

1. Develop competent, safe and professional specialist community nurses who have a sound theoretical knowledge base and who are fit for practice in the designated field of general practice nursing.
2. Equip students with the knowledge, skills and understanding to evaluate, enhance, synthesise and develop higher levels of decision making within the context of primary care and public health.
3. Develop and enhance leadership and management skills within the context of primary care practice to

support others and to benefit the health of patients, clients and carers.

4. Provide the opportunity to engage in interdisciplinary and inter-professional working practices.
5. Enable practitioners to adopt critical reflective practice and lifelong learning that fosters a spirit of scientific enquiry and research that promotes personal and professional development.
6. Equip practitioners with cognitive knowledge and skills to lead, innovate and contribute to an evidence base of practice in order to benefit patients, clients, carers and communities.
7. Support practitioners to work within codes and standards of professional practice to protect human rights, promote equality and manage risk in the safe delivery of health care.
8. To develop and integrate the underpinning theory and practice to prepare specialist practitioners to prescribe safely, appropriately and cost effectively from the Nurse Prescribers formulary for Community Practitioners (optional element of course).

Course Structure:

September (Full-time)

Year 1

Postgraduate Diploma in Specialist Community Nursing students normally study 120 credits for their award.

Module	Title	Credits	Period	Type
7NH035	Enhancing Health Assessment and Examination Skills within Clinical Practice	20	SEM1	Core
7NH038	Research and Inquiry in Specialist Practice	20	SEM2	Core
7NH039	Advanced Perspectives of Public Health in Specialist Practice	20	SEM1	Core
7NH032	Advancing Skills in Primary Care	20	SEM2	Core
7NH045	Specialist Community Nursing in the context of general practice and district nursing (including V100)	20	YEAR	Core
7NH042	Critical perspectives of leadership, management and innovation in specialist practice	20	YEAR	Core

September (Part-time)

Year 1

Part-time students study a minimum of 40 and a maximum of 80 credits per year.

Module	Title	Credits	Period	Type
7NH039	Advanced Perspectives of Public Health in Specialist Practice	20	SEM1	Core
7NH035	Enhancing Health Assessment and Examination Skills within Clinical Practice	20	SEM1	Core
7NH038	Research and Inquiry in Specialist Practice	20	SEM2	Core
7NH032	Advancing Skills in Primary Care	20	SEM2	Core

September (Part-time)

Year 2

Part-time students study a minimum of 40 and a maximum of 80 credits per year.

Module	Title	Credits	Period	Type
7NH042	Critical perspectives of leadership, management and innovation in specialist practice	20	YEAR	Core

For this option group you must choose a minimum of 20 credits and a maximum of 20 credits

7NH045	Specialist Community Nursing in the context of general practice and district nursing (including V100)	20	YEAR	
7NH036	Specialist Community Nursing in the context of general practice and district nursing	20	YEAR	

Please note: Optional modules might not run every year, the course team will decide on an annual basis which

options will be running, based on student demand and academic factors, to create the best learning experience.

Learning, Teaching and Assessment

Academic Regulations Exemption:

Exemption from the following University regulations in order to satisfy Professional Body (NMC) requirements;

Section 1.2.3 - The programme is 52 weeks in duration in order to meet the requirements of the NMC and is delivered outside the standard University Academic Calendar.

Section 4.3.5 - Students will not be able to carry over any failure or repeat a module due to contractual arrangements with NHS Strategic Health Authorities and sponsoring organisations.

Section 5.1.1 - Students will need to pass all 120 credits at Level 7 and including practice based competencies as regulated by the NMC. Students who do not pass these practice competencies will not be entitled to a professionally accredited qualification but may be eligible to exit with a non-accredited interim award (e.g; PgC Health Studies).

APPROVED by AFRSC on 17th March 2011.

Learning Outcomes:

PGCert Course Learning Outcome 1 (PGCCL01)

Demonstrate a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of your academic discipline, field of study or area of professional practice with a conceptual understanding that enables the student: 1. to evaluate critically current research and advanced scholarship in the discipline. 2. to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses.

PGCert Course Learning Outcome 2 (PGCCL02)

Demonstrate a comprehensive understanding of techniques applicable to your own research or advanced scholarship and ability to continue to advance your knowledge and understanding, and to develop new skills to a high level.

PGCert Course Learning Outcome 3 (PGCCL03)

Demonstrate originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline.

PGCert Course Learning Outcome 4 (PGCCL04)

Ability to deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate your conclusions clearly to specialist and non-specialist audiences.

PGCert Course Learning Outcome 5 (PGCCL05)

Demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level.

PGCert Course Learning Outcome 6 (PGCCL06)

Demonstrate the qualities and transferable skills necessary for employment requiring: 1. the exercise of initiative and personal responsibility 2. decision-making in complex and unpredictable situations 3. the independent learning ability required for continuing professional development.

PGDip Course Learning Outcome 1 (PGDCL01)

Demonstrate a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of your academic discipline, field of study or area of professional practice with a conceptual understanding that enables the student: 1. to evaluate critically current research and advanced scholarship in the discipline. 2. to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses.

PGDip Course Learning Outcome 2 (PGDCL02)

Demonstrate a comprehensive understanding of techniques applicable to your own research or advanced scholarship and ability to continue to advance your knowledge and understanding, and to develop new skills to a high level.

PGDip Course Learning Outcome 3 (PGDCL03)

Demonstrate originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline.

PGDip Course Learning Outcome 4 (PGDCLO4)

Ability to deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate your conclusions clearly to specialist and non-specialist audiences.

PGDip Course Learning Outcome 5 (PGDCLO5)

Demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level.

PGDip Course Learning Outcome 6 (PGDCLO6)

Demonstrate the qualities and transferable skills necessary for employment requiring: 1. the exercise of initiative and personal responsibility 2. decision-making in complex and unpredictable situations 3. the independent learning ability required for continuing professional development.

Overview of Assessment:

Module	Title	Course Learning Outcomes
7NH032	Advancing Skills in Primary Care	PGCCLO1, PGCCLO2, PGCCLO3, PGCCLO5, PGCCLO6, PGDCLO1, PGDCLO2, PGDCLO3, PGDCLO5, PGDCLO6
7NH035	Enhancing Health Assessment and Examination Skills within Clinical Practice	PGCCLO1, PGCCLO2, PGCCLO4, PGCCLO6, PGDCLO1, PGDCLO2, PGDCLO4, PGDCLO6
7NH036	Specialist Community Nursing in the context of general practice and district nursing	PGDCLO1, PGDCLO2, PGDCLO3, PGDCLO4, PGDCLO5, PGDCLO6
7NH038	Research and Inquiry in Specialist Practice	PGCCLO1, PGCCLO3, PGCCLO6, PGDCLO1, PGDCLO3, PGDCLO6
7NH039	Advanced Perspectives of Public Health in Specialist Practice	PGCCLO1, PGCCLO3, PGCCLO5, PGCCLO6, PGDCLO1, PGDCLO3, PGDCLO5, PGDCLO6
7NH042	Critical perspectives of leadership, management and innovation in specialist practice	PGCCLO1, PGCCLO3, PGCCLO4, PGCCLO5, PGCCLO6, PGDCLO1, PGDCLO3, PGDCLO4, PGDCLO5, PGDCLO6

Teaching, Learning and Assessment:

A range of learning activities will be utilised to support the achievement of the course learning outcomes. These will include interactive lectures and presentations, VLE, seminars, workshops, practice related activities, group and individual tutorials, clinical skills development within the Clinical Skills Laboratory, enquiry based learning, action learning, self directed study and reflection.

Students will spend 50% of the programme in practice with their sponsoring or seconded Primary Care Trust/employing organisation. They will be supported in practice by an identified qualified practice assessor who will assist the student in meeting their learning needs and assess their competency against the NMC Standards for Specialist Community Nursing (2004).

Assessment Methods:

At the University of Wolverhampton, a variety of modes of assessment will be used to support and test your learning and progress and to help you develop capabilities that are valued beyond your University studies and into your working life. Your course may include a variety of assessment activities:

Written examinations (including online examinations, open and closed book examinations and quizzes)
Coursework (for example, essays, reports, portfolios, project proposals and briefs, CVs, poster presentation)
Practical (for example, oral and video presentations, laboratory work, performances, practical skills assessment)

In the final year of your undergraduate degree, and at the end of your postgraduate degree, you are likely to be expected to write an extended piece of work or research, such as a dissertation or a practice-based piece of research.

Student Support:

Students will be supported throughout the course by:-

The Award Leaders and the designated Course Leader for the field of practice they are studying i.e. General Practice Nursing. Each course leader is a registered NMC teacher and has subject specific knowledge and expertise within the same field of nursing that the student is studying.

Students who successfully complete the post graduate diploma are able to progress and complete an MSc in Primary Care.

Each student will be allocated an academic assessor (the course leader or another designated member of the course team experienced in the same field of practice).

The Module Leader who will provide academic support for the student on the module.

The practice assessor will facilitate and support opportunities for learning within the practice environment. The practice assessor will ensure that appropriate and relevant learning experiences are available and will supervise, monitor and assess that the student has achieved the learning outcomes for practice.

In addition to the campus-based libraries which provide special support, the University provides a range of support for you to develop the skills required for successful academic study. These include:

[Infobites](#)

[Academic Writing Skills](#)

[Referencing](#)

[EndNote](#)

[PebblePAD](#)

[IT Services self-help guides](#)

[Study Skills](#)

[Skills for learning](#)

[Assist](#)

[ASSISTThe Student Enabling Centre](#)

The Faculty provides additional support:

FEHW Student Advisors

Your Academic Assessor

The Module Leader and module team members

Within the induction programme there are dedicated face to face sessions on study skills, referencing and details on how to contact and access the above support services. Students will also be informed about the range of electronic study skills support available to them on a regular basis both within the induction period and in the delivery of each module. Within pre-course materials students are directed to a range of resources in relation to study skills focusing on activities such as how to write an assignment, making effective lecture notes, etc.

Employability in the Curriculum:

Throughout the course students will have the opportunity to develop and demonstrate a number of key skills to enhance their employability, some of these are listed below:

- Work effectively as part of a group and be involved in interprofessional working practices.
- Demonstrate teamwork, leadership skills and be able to manage and resolve conflict
- Be independent and self directing in their own learning
- Develop effective communication skills both written (via reports etc.) and oral (through formal presentations)
- Problem-solve and make sound judgements and complex decisions.
- Develop IT skills (which include use of basic packages for word processing, spreadsheets, use of email, virtual learning environments etc.)
- Time management and show the ability to be able to prioritise
- Manage change and seek out innovative opportunities in order to enhance practice and service delivery
- Develop knowledge, skills and understanding relating to assessment, caseload management
- Demonstrate competence as a specialist community nurse by achieving the NMC Standards for specialist community nursing.
