Status:	Validated

Core Information

Awarding Body / Institution:	University of Wolverhampton		
School / Institute:	Institute of Health		
Course Code(s):	NH100P31UV	Part-time	3 Years
Course Title:	MSc Advanced Clinical Practice		
Hierarchy of Awards:	Master of Science Advanced Clinical Practice Postgraduate Diploma Advanced Clinical Practice Postgraduate Certificate Advanced Clinical Practice Postgraduate Certificate Advanced Clinical Practice University Statement of Credit University Statement of Credit		
Language of Study:	English		
Date of DAG approval:	01/Jun/2017		
Last Review:	2019/0		
Course Specification valid from:	2015/6		
Course Specification valid to:	2025/6		

Academic Staff

Course Leader:	Mrs Mary Drozd
Head of Department:	Dr Julian Barratt

Course Information

Location of Delivery:	University of Wolverhampton
Category of Partnership:	Not delivered in partnership
Teaching Institution:	University of Wolverhampton
Open / Closed Course:	This course is open to all suitably qualified candidates.

Entry Requirements:

Entry requirements are subject to regular review. The entry requirements applicable to a particular academic year will be published on the University website (and externally as appropriate e.g. UCAS)

New entrants to Advanced Clinical Practice:

This course is open to practitioners registered with the Nursing and Midwifery Council (NMC) OR Health and Care Professions Council (HCPC).

To become an Advanced Clinical Practitioner, the following points should normally be met and the applicant must be in a role that has employer support for clinical placement and time to attend the course with a clinical supervisor/mentor in practice.

- Hold current first level Professional Registration with a relevant regulatory body.
- Entry requirement includes first degree and minimum of 3 years' relevant experience in clinical practice.
- Recognised post within a healthcare organisation and the post listed within workforce plan and business need.
- Confirmed defined / protected Advanced Clinical Practice role for the trainee to be moved into on successful completion of the programme.
- Appropriately named clinical supervisor to support the trainee during the programme of training.
- Commitment to providing protected learning time for the trainee Advanced Clinical Practitioner during the MSc and this is equivalent to: •One day a week in University (or equivalent) reading, writing and other academic activities.
- One day a week protected time for supported clinical practice (or equivalent)

Applicants without a first degree:

We have a separate policy for applicants who do not hold a first degree at 2:2 but have substantial and relevant clinical or prior study experience. Please discuss with the Course leader in the first instance. Applicants may be offered a place to study a single module of the programme as a stand-alone module student and, if successful, upgrade your University registration to a Postgraduate Cert, Dip or MSc and use your stand-alone module towards the course to which you have upgraded.

Existing Practitioners:

Existing Practitioners who are currently working in an Advanced Clinical Practice role and do not have a MSc level of education have options to either complete the Masters or continue in the role and update in-line with their CPD requirements.

There are 'Top Up' arrangements or Recognition of Prior learning (RPL) for existing Practitioners who do not have a full Master's degree. They have the option to complete the degree and to do this they would need to be in a relevant Advanced Clinical Practice post and supported by their organisation.

Pharmacists who have completed a level 7 Post Graduate Certificate in Independent prescribing will be profiled and will be advised on the appropriate entry level to the course.

Employers:

All organisations supporting staff to undertake an Advanced Clinical Practice course will need to ensure as

part of their workforce plans the role of Advanced Clinical Practitioner is embedded within their organisation structures. Once the trainee is a qualified Advanced Clinical Practitioner, there will need to be on-going support from the Trust

English Competency Standards :

If English is not your first language they will need to have a TOEFL score of 550 or above, or an IELTS score of 7.0 or above in each of the IELTS categories.

International applicants can find further advice here. <http://www.wlv.ac.uk/international/>

This course will not lead to registration with the Nursing and Midwifery Council. Please see details at [Joining the NMC Register](#)

Distinctive Features of the Course:

The MSc Advanced Clinical Practice has been designed to meet the needs of the health professional whose desire is to develop their clinical career to a higher level as an advanced practitioner. The course philosophy is to acknowledge your prior experience and knowledge as a health professional and subsequently enable you to fulfil your potential as a postgraduate through the development of new understanding, critical insight and advanced level academic and clinical skills. This course is open to practitioners registered with the Nursing and Midwifery Council (NMC), or Health and Care Professions Council (HCPC), or General Pharmaceutical Council (GPhC).

This programme will develop the health professional's knowledge and skills to work at an advanced level of clinical practice. The programme has been designed around the current Health Education England West Midlands (HEEWM) competency framework (2015). The Advanced Clinical Practice Framework for the West Midlands is multidisciplinary and applies to all non-medical healthcare professionals including nurses, midwives, pharmacists and allied health professionals.

It is expected that on completion of this course you will be a recognised Advanced Clinical Practitioner (HEEWM, 2015) with an expert knowledge base, complex decision-making skills and clinical competencies for expanded autonomous scope of practice, the characteristics of which are shaped by the context in which the individual practices.

You will normally have an honours degree and have been working in clinical practice for a minimum of 3 years and have evidence of studying at level 6 prior to commencing the course.

The course has been developed in response to identified and anticipated demands for increasing the number of health professionals with advanced clinical skills and critical understanding. For the award of Postgraduate Diploma you will study six 20 credit modules. This can be followed by one 60 credit Independent Project module to achieve the award MSc Advanced Clinical Practice.

Educational Aims of the Course:

The MSc Advanced Clinical Practice has been designed to meet the needs of the health professional whose desire is to develop their clinical career to a higher level as an advanced practitioner. The course philosophy is to acknowledge your prior experience and knowledge as a health professional and subsequently enable you to fulfil your potential as a postgraduate through the development of new understanding, critical insight and advanced level academic and clinical skills. This course is open to practitioners registered with the Nursing and Midwifery Council (NMC) or Health and Care Professions Council (HCPC) or General Pharmaceutical Council (GPhC).

This programme will utilise a multiprofessional approach to develop the health professional's knowledge and skills to work at an advanced level of clinical practice. The programme has been designed around the current Health Education England West Midlands (HEEWM) competency framework (2015) for a range of health professionals. The Advanced Clinical Practice Framework for the West Midlands is multidisciplinary and applies to all non-medical healthcare professionals including nurses, midwives, pharmacists and allied health professionals. As such, the course supports the concepts outlined within the Multi-professional framework

for advanced clinical practice in England (Health Education England, 2017) and encourages the development of new ways of working within the multiprofessional workforce to meet the changing needs of the population.

It is expected that on completion of this course you will be a recognised Advanced Clinical Practitioner (HEWM, 2015) with an expert knowledge base, complex decision-making skills and clinical competencies for expanded autonomous scope of practice, the characteristics of which are shaped by the context in which the individual practices.

You will normally have an honours degree and have been working in clinical practice for a minimum of 3 years and have evidence of studying at level 6 prior to commencing the course.

The course has been developed in response to identified and anticipated demands for increasing the number of health professionals with advanced clinical skills and critical understanding. For the award of Postgraduate Diploma you will study six 20 credit modules. This can be followed by one 60 credit Independent Project module to achieve the award MSc Advanced Clinical Practice.

PSRB:

None

Course Structure:

January (Part-time)

Year 1

Module	Title	Credits	Period	Type
7NH015	Health Assessment for Advanced Clinical Practice	20	SEM2	Core
7NH016	Clinical Reasoning for Advanced Clinical Practice	20	SEM3	Core
7HW108	Leadership and Governance for Advanced Clinical Practice	20	CRYRA	Core

January (Part-time)

Year 2

Module	Title	Credits	Period	Type
--------	-------	---------	--------	------

Linked Option Group Rule: Select a minimum of 40 credits and a maximum of 40 credits from the linked (*) groups.

***For this option group you must choose a minimum of 0 credits and a maximum of 40 credits**

If you are a pharmacist but do not hold an independent prescribing qualification you MUST select 7PY019.

7PY019	Practice Certificate in Independent Prescribing	40	INJR	
--------	---	----	------	--

***For this option group you must choose a minimum of 0 credits and a maximum of 20 credits**

If you are a nurse or allied health professional but do not hold an independent prescribing qualification you MUST select 7NH019 and 7NH020.

7NH019	Advanced Pharmacology for Non-Medical Prescribing	20	INJR	
--------	---	----	------	--

For this option group you must choose a minimum of 20 credits and a maximum of 20 credits

If you are in possession of Independent Prescribing Qualification at level 6, you should choose 20 credits from semester 2 (& 20 credits from semester 1 when you return in September). Both modules should be linked to your own specialist area of practice.

7HL006	Paediatric Emergency Care	20	SEM2	
7HW062	The Critical Professional	20	SEM2	
7HW068	Specialist Negotiated Practice	20	SEM2	
7HW121	Leading and managing health care for people with a learning disability and/or Autism	20	SEM2	
7NH068	Advancing contemporary issues in mental health practice	20	SEM2	

Linked Option Group Rule: Select a minimum of 40 credits and a maximum of 40 credits from the linked (*) groups.

***For this option group you must choose a minimum of 0 credits and a maximum of 20 credits**

If you are a nurse or allied health professional but do not hold an independent prescribing qualification you MUST select 7NH019 and 7NH020.

7NH020	Advanced Perspectives of Non-Medical Prescribing Practice	20	CRYRA	
--------	---	----	-------	--

Continuing students will follow the programme indicated below:

January (Part-time)

Year 2

Module	Title	Credits	Period	Type
--------	-------	---------	--------	------

Linked Option Group Rule: Select a minimum of 40 credits and a maximum of 40 credits from the linked (*) groups.

***For this option group you must choose a minimum of 0 credits and a maximum of 40 credits**

If you are a pharmacist but do not hold an independent prescribing qualification you MUST select 7PY019.

7PY019	Practice Certificate in Independent Prescribing	40	INJR	
--------	---	----	------	--

***For this option group you must choose a minimum of 0 credits and a maximum of 40 credits**

If you are a nurse or allied health professional but do not hold an independent prescribing qualification you MUST select 7NH019 and 7NH020.

7NH019	Advanced Pharmacology for Non-Medical Prescribing	20	INJR	
--------	---	----	------	--

For this option group you must choose a minimum of 20 credits and a maximum of 20 credits

If you are in possession of Independent Prescribing Qualification at level 6, you should choose 20 credits from semester 2 (& 20 credits from semester 1 when you return in September). Both modules should be linked to your own specialist area of practice.

7HL006	Paediatric Emergency Care	20	SEM2	
7HW062	The Critical Professional	20	SEM2	
7HW068	Specialist Negotiated Practice	20	SEM2	

Linked Option Group Rule: Select a minimum of 40 credits and a maximum of 40 credits from the linked (*) groups.

***For this option group you must choose a minimum of 0 credits and a maximum of 20 credits**

If you are a nurse or allied health professional but do not hold an independent prescribing qualification you MUST select 7NH019 and 7NH020.

7NH020	Advanced Perspectives of Non-Medical Prescribing Practice	20	CRYRA	
--------	---	----	-------	--

7HW126	Advanced Inquiry for Healthcare Professionals	20	SEM1	Core
--------	---	----	------	------

For this option group you must choose a minimum of 20 credits and a maximum of 20 credits

If already in possession of V300 Non-Medical Prescribing qualification at level 6, you can undertake a Recognition of Prior Learning assessment or choose 1 option module from this group linked to your own specialist area of practice.

7HW060	The Concept of Dementia Care	20	SEM1	
7HW078	Long Term Conditions	20	SEM1	
7NH067	Recognition, Assessment and Interventions for the Deteriorating Patient	20	SEM1	
7HW068	Specialist Negotiated Practice	20	SEM1	

Continuing students will follow the programme indicated below:

7NH018	Advanced Inquiry for Nurses, Midwives and Allied Health Professionals	20	SEM1	Core
--------	---	----	------	------

For this option group you must choose a minimum of 20 credits and a maximum of 20 credits

If you are in possession of Independent Prescribing Qualification at level 6, you should choose 20 credits from semester 1. The module should be linked to your own specialist area of practice.

7HW067	Tissue Viability	20	SEM1	
7HW060	The Concept of Dementia Care	20	SEM1	
7HW078	Long Term Conditions	20	SEM1	
7HW068	Specialist Negotiated Practice	20	SEM1	

January (Part-time)

Year 3

Year 2

Module	Title	Credits	Period	Type
7HW126	Advanced Inquiry for Healthcare Professionals	20	SEM3	Core

Linked Option Group Rule: Select a minimum of 40 credits and a maximum of 40 credits from the linked (*) groups.

*** For this option group you must choose a minimum of 0 credits and a maximum of 20 credits**

If you are in possession of Independent Prescribing Qualification at level 6, you should choose 20 credits from semester 1 & 20 credits from semester 2. Both modules should be linked to your own specialist area of practice.

7HL006	Paediatric Emergency Care	20	SEM2	
7HW062	The Critical Professional	20	SEM2	
7HW068	Specialist Negotiated Practice	20	SEM2	
7HW067	Tissue Viability	20	SEM2	
7HW121	Leading and managing health care for people with a learning disability and/or Autism	20	SEM2	
7NH068	Advancing contemporary issues in mental health practice	20	SEM2	

Linked Option Group Rule: Select a minimum of 40 credits and a maximum of 40 credits from the linked (*) groups.

*** For this option group you must choose a minimum of 0 credits and a maximum of 20 credits**

If you are in possession of Independent Prescribing Qualification at level 6, you should choose 20 credits from semester 1 & 20 credits from semester 2. Both modules should be linked to your own specialist area of practice.

7HL007	Elder Emergency care	20	SEM1
7HW060	The Concept of Dementia Care	20	SEM1
7HW078	Long Term Conditions	20	SEM1
7HW068	Specialist Negotiated Practice	20	SEM1
7NH067	Recognition, Assessment and Interventions for the Deteriorating Patient	20	SEM1

Linked Option Group Rule: Select a minimum of 40 credits and a maximum of 40 credits from the linked (*) groups.

***For this option group you must choose a minimum of 0 credits and a maximum of 40 credits**

If you are a pharmacist but do not hold an independent prescribing qualification you MUST select 7PY019.

7PY019	Practice Certificate in Independent Prescribing	40	YEAR
--------	---	----	------

***For this option group you must choose a minimum of 0 credits and a maximum of 40 credits**

If you are a nurse or allied health professional but do not hold an independent prescribing qualification you MUST select 7NH019 and 7NH020. Otherwise select modules from the other Option Groups.

7NH019 runs semester 1 and 7NH020 runs semester 2.

7NH019	Advanced Pharmacology for Non-Medical Prescribing	20	INYR
7NH020	Advanced Perspectives of Non-Medical Prescribing Practice	20	INYR

Continuing students will follow the programme indicated below:

September (Part-time)

Year 2

Module	Title	Credits	Period	Type
7NH018	Advanced Inquiry for Nurses, Midwives and Allied Health Professionals	20	SEM3	Core

Linked Option Group Rule: Select a minimum of 40 credits and a maximum of 40 credits from the linked (*) groups.

***For this option group you must choose a minimum of 0 credits and a maximum of 20 credits**

If you are in possession of Independent Prescribing Qualification at level 6, you should choose 20 credits from semester 1 (OPTION GROUP 1) & 20 credits from semester 2 (OPTION GROUP 2). Both modules should be linked to your own specialist area of practice.

OPTION GROUP 2

7HL006	Paediatric Emergency Care	20	SEM2
7HW062	The Critical Professional	20	SEM2
7HW068	Specialist Negotiated Practice	20	SEM2

*** For this option group you must choose a minimum of 0 credits and a maximum of 20 credits**

If you are in possession of Independent Prescribing Qualification at level 6, you should choose 20 credits from semester 1 (OPTION GROUP 1) & 20 credits from semester 2 (OPTION GROUP 2). Both modules should be linked to your own specialist area of practice.

OPTION GROUP 1

7HW068	Specialist Negotiated Practice	20	SEM1
7HW060	The Concept of Dementia Care	20	SEM1
7HW078	Long Term Conditions	20	SEM1
7HW067	Tissue Viability	20	SEM1

Linked Option Group Rule: Select a minimum of 40 credits and a maximum of 40 credits from the linked (*) groups.

*** For this option group you must choose a minimum of 0 credits and a maximum of 40 credits**

If you are a pharmacist but do not hold an independent prescribing qualification you **MUST** select 7PY019.

7PY019	Practice Certificate in Independent Prescribing	40	INJR
--------	---	----	------

*** For this option group you must choose a minimum of 0 credits and a maximum of 40 credits**

If you are a nurse or allied health professional but do not hold an independent prescribing qualification you **MUST** select 7NH019 and 7NH020. Otherwise select modules from the other Option Groups.

7NH019 runs semester 1 and 7NH020 runs semester 2.

7NH019	Advanced Pharmacology for Non-Medical Prescribing	20	INJR
7NH020	Advanced Perspectives of Non-Medical Prescribing Practice	20	INJR

September (Part-time)

Year 3

Module	Title	Credits	Period	Type
7HW120	Dissertation: Evidence Based Practice and Research	60	YEAR	Core

Continuing students will follow the programme indicated below:

September (Part-time)

Year 3

Module	Title	Credits	Period	Type
For this option group you must choose a minimum of 60 credits and a maximum of 60 credits				
7HW020	Evidence Based Practice Project	60	CRYRA	
7HW015	Research Dissertation	60	CRYRA	

Please note: Optional modules might not run every year, the course team will decide on an annual basis which options will be running, based on student demand and academic factors, to create the best learning experience.

Learning, Teaching and Assessment

Academic Regulations Exemption:

Section 1.2.3 - Exemption for delivery outside the standard University Academic Calendar, including Year Long modules, to enable students to complete the required hours for practice.

Section 3.4.2 - Exemption to extend the minimum period of registration to three years, with a maximum six year duration, in part-time mode of study.

APPROVED by AFRSC.

Learning Outcomes:

PGCert Course Learning Outcome 1 (PGCCL01)

Demonstrate a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of your academic discipline, field of study or area of professional practice with a conceptual understanding that enables the student: 1. to evaluate critically current research and advanced scholarship in the discipline. 2. to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses.

PGCert Course Learning Outcome 2 (PGCCL02)

Demonstrate a comprehensive understanding of techniques applicable to your own research or advanced scholarship and ability to continue to advance your knowledge and understanding, and to develop new skills to a high level.

PGCert Course Learning Outcome 3 (PGCCL03)

Demonstrate originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline.

PGCert Course Learning Outcome 4 (PGCCL04)

Ability to deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate your conclusions clearly to specialist and non-specialist audiences.

PGCert Course Learning Outcome 5 (PGCCL05)

Demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level.

PGDip Course Learning Outcome 1 (PGDCL01)

Demonstrate a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of your academic discipline, field of study or area of professional practice with a conceptual understanding that enables the student: 1. to evaluate critically current research and advanced scholarship in the discipline 2. to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses.

PGDip Course Learning Outcome 2 (PGDCL02)

Demonstrate a comprehensive understanding of techniques applicable to your own research or advanced scholarship and ability to continue to advance your knowledge and understanding, and to develop new skills to a high level.

PGDip Course Learning Outcome 3 (PGDCL03)

Demonstrate originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline.

PGDip Course Learning Outcome 4 (PGDCL04)

Ability to deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate your conclusions clearly to specialist and non-specialist audiences.

PGDip Course Learning Outcome 5 (PGDCLO5)

Demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level.

PGDip Course Learning Outcome 6 (PGDCLO6)

Demonstrate the qualities and transferable skills necessary for employment requiring: 1. the exercise of initiative and personal responsibility 2. decision-making in complex and unpredictable situations 3. the independent learning ability required for continuing professional development.

Masters Course Learning Outcome 1 (MA#CLO1)

Demonstrate systematic understanding of complex data from a variety of evidence-based resources in the performance and documentation of holistic advanced health assessment skills, in order to plan more effective care and service delivery for individuals.

Masters Course Learning Outcome 2 (MA#CLO2)

Contribute critically to advanced clinical practice debates through the development of advanced skills in accessing, critically appraising and evaluating the knowledge base for the purposes of informing current and future practice decisions

Masters Course Learning Outcome 3 (MACLO3)

Using advanced communication skills to develop collaborative, collegiate relationships with professional and lay colleagues demonstrating comprehensive understanding of others and applying the central tenets of mutual respect, trust and interdependency within the changing boundaries of practice

Masters Course Learning Outcome 4 (MA#CLO4)

Demonstrate self-direction to develop advanced knowledge, advanced clinical skills and advanced levels of practice in her/his field in relation to reducing risk whilst prioritising, organising, delivering, delegating and supervising care and service delivery

Masters Course Learning Outcome 5 (MA#CLO5)

Demonstrate self-direction, creativity and interpretative skills related to the completion of a project with its core focus on an aspect of healthcare in the context of improving service delivery

7PY019	Practice Certificate in Independent Prescribing	PGDCLO1, PGDCLO4, PGDCLO5

Teaching, Learning and Assessment:

Critical to the implementation of the MSc Advanced Clinical practice, acceptance and sustainability of this role is that ACPs are widely recognised as being consistently competent and capable in fulfilling the requirement of the role in its entirety (HEWM, 2015). Given that the ACP is expected to have a level of advanced clinical knowledge and skills, it is appropriate that assessment strategies are utilised to ensure that robust, valid and reliable

Assessments are undertaken, resulting in practitioners deemed fit for purpose.

Assessment methods used will be a mixture of:

1. Assignments, exams, projects, assessing theoretical clinical knowledge
2. Objective structured clinical examinations (OSCEs)
3. Case-based presentation
4. Direct observation of clinical skills
5. Development of clinical competence portfolio

The module design of this course will enable formative assessments to be included to enhance learning.

The course may enable students to gain considerable knowledge of the wider professional groups including Nurses, Pharmacists and Allied health Professional .

Course Team

A course leader will be available to discuss choices and progress.

A group of dedicated and experienced academics who form the course team will be available for advice whilst studying modules.

Virtual Learning Environment (VLE)

On-line resources for each module will be made available through VLE. A 'Course Café' facility within the VLE enables discussion with fellow students and the module academic staff whilst the module is underway.

Assessment Methods:

At the University of Wolverhampton, a variety of modes of assessment will be used to support and test your learning and progress and to help you develop capabilities that are valued beyond your University studies and into your working life. Your course may include a variety of assessment activities:

Written examinations (including online examinations, open and closed book examinations and quizzes)
Coursework (for example, essays, reports, portfolios, project proposals and briefs, CVs, poster presentation)
Practical (for example, oral and video presentations, laboratory work, performances, practical skills assessment)

In the final year of your undergraduate degree, and at the end of your postgraduate degree, you are likely to be expected to write an extended piece of work or research, such as a dissertation or a practice-based piece of research.

Student Support:

Learning and Information Services (LIS)

Face to face and on-line activities to promote study skills development and links to study support via the Learning Centres 'skills for learning' programme and its web pages;
http://www.wlv.ac.uk/lib/skills_for_learning.aspx
www.wlv.ac.uk/skills

Learning and information services (LIS) offer individual and group support at post graduate and degree level across our campus learning centres.

'ASSIST' provides real-time online librarian support available at;

<http://www.wlv.ac.uk/lib/contacts/assist.aspx>

Personal Tutor

A 'Personal Tutor' will be allocated at the start of the course and will be available for personal advice both on-line and face-to-face.

Additional Services

The [Careers and Employment Services](#) team offer support in finding a part-time job or volunteering whilst studying and help in preparing for perhaps different work after study.

The Counselling Service offers a confidential space where you can talk to a counsellor about your concerns. Personal appointments are available on all campuses; there is a drop-in service every weekday at City Campus and on online counselling is available at [www://www.wlv.ac.uk/counselling](http://www.wlv.ac.uk/counselling)

The student financial support unit at money matters can help with advice on funds available to students.

The student enabling centre provides a comprehensive range of support for Deaf, Dyslexic and Disabled students including; screenings and assessments, guidance on gaining financial support, support services and enabling technologies. They can be contacted at students with disabilities.

Student Advisors are available within FEHW and can be accessed independently for any aspect of study or University life.

Employability in the Curriculum:

Attainment of an MSc Advanced Clinical Practice in today's health care environment provides regional and nationally recognised eligibility to apply for Advanced Clinical Practice roles within a diverse sphere of health care areas. NHS and private healthcare provider organisations are increasingly identifying job specifications which require essential or desirable characteristic of the applicant to be studying for or have attained a Master's Degree in Advanced Practice prior to embarking on these key clinical roles, in line with Health Education England West Midlands recommendations for advanced level practice (2015).
