Distinctive Features of the Course:

The BSc (Hons) Sports Coaching Practice (Football) course is delivered in association with Wolverhampton Wanderers FC and West Bromwich Albion FC who provide guest lectures, placements and access to facilities. The course delivers a healthy mix of both practical and theoretical content in the field of the science and practice of coaching. You will be encouraged to coach both peers and external participants and have opportunities to take NGB coaching awards. Our strong links with sports organisations and employers mean there will be real world opportunities for coaching work-experience throughout the course, developing skills to meet the real-life needs of sports people across a range of ages, level of performance and sports settings. Teaching staff on this award are actively engaged in coaching and research which supports the cutting edge philosophy of the programme. There are opportunities for students to study overseas within the ERASMUS programme. Students have the opportunity to undertake professional qualifications through our connections with external agencies throughout the course. The breadth of this course opens up a wide range of employment opportunities for graduates.

The football route means that you can choose to focus your coaching studies on football allowing you to develop coaching skills and understanding specific to football.

Educational Aims of the Course:

The BSc (Hons) Sports Coaching Practice (Football) course, in association with Wolverhampton Wanderers FC and West Bromwich Albion FC, aims to produce graduates who are both competent and confident coaches and able to apply a range of scientific and 'teaching' skills to their coaching. The course delivers a healthy mix of both practical and theoretical techniques needed for the science and practice of coaching. You will be encouraged to coach both peers and external participants and have opportunities to take NGB coaching awards.

In addition, you will be equipped with the skills, knowledge and attributes to work independently and as part of a team within the coaching profession and allow for employment opportunities in a wide range of other sport-related and graduate level careers. You will have the opportunity to explore global coaching issues and be encouraged to utilise a range of learning, teaching and sports science technologies.

The football route means that you can choose to focus your coaching studies on football allowing you to study specialist modules such as 'Performance Analysis in Football' and 'Ethics in Football Coaching' and develop

sport-specific knowledge and applied skills. There will also be placement opportunities provided by our partner organisations.

Employability in the Curriculum:

The BSc (Hons) Sports Coaching (football) course will provide opportunities to acquire a range of coaching awards which allow you to work in a range of employment settings. Our strong links with sport employers will provide opportunities to develop your practical coaching skills and build your curriculum vitae with organisations such as national governing bodies of sport, private and public clubs, local authorities, schools, and professional clubs.

Positions held by previous graduates from the BSc (Hons) Sports Coaching include: lecturers in further education colleges and adult education, paid coaches within local authorities; performance analysts; strength and conditioning instructors; fitness instructors for a large chain of health clubs; swimming teachers, employed by or have set up their own coaching companies.

As a graduate of a sports related degree you will also be well prepared to work in the wider sport and physical activity sector. The Government's 'Sporting Future' strategy identified that sport and physical activity is central to life in the UK. It has the power to transform people's wellbeing and create a fitter, healthier and happier nation. The transformative power of sport has never been more important as the growing levels of health problems and conditions associated with physical inactivity cost the nation over £7 billion each year. Sport and physical activity also contributes approximately £40 billion to the UK economy each year, with one million people employed in the sport and physical activity sectors.

With the significant role that sport plays in the health of the nation, and its contribution to the economy, it is no surprise that supporting this sector is considered crucial by the Government. This is clearly illustrated by Sport England's 'Towards an Active Nation' strategy that will see nearly £325 million invested in increasing sport participation from 2016-2021. The strategy focuses on the benefits that sport can bring to people and to society, with the aim of enhancing physical wellbeing, mental wellbeing, individual development, social and community development and economic development. Investment will target key areas such as:

Tackling inactivity

Children and young people – increasing children's basic competence and enjoyment

Taking sport and activity into the mass market – increasing mass participation

Supporting sport's core markets – supporting those who already have a strong affinity for sport, (including talented athletes)

Local delivery – investing in up to 10 specific areas to pilot new, more joined up approaches to getting people active

Creating welcoming sports facilities
